

Curriculum Vitae

Yong-Geun Park

Associate Professor, Department of Orthopedic Surgery,
Jeju National University School of Medicine, Jeju National University Hospital

● Educational Background & Professional Experience

2018–Present	Jeju National University Hospital / Jeju National University School of Medicine, Associate Professor
2020–2021	Scripps Research Molecular Medicine, Visiting Scholarship
2014–2018	Jeju National University Hospital / Jeju National University School of Medicine, Assistane Professor
2013–2014	Jeju National University Hospital / Jeju National University School of Medicine, Instructor
2012–2013	Samsung Medical Center, Fellow
2011–2012	Jeju National University Hospital, Fellow

● Research Interests

Knee surgery
Sports Medicine and Traumatology
Orthopedic surgery
Osteoporosis

● Publications

1. Minimally invasive plate osteosynthesis with dual plating for periprosthetic distal femoral fractures following total knee arthroplasty. *J Orthop Surg Res*. 2021
2. Intra-Articular Injection of a Novel DVS Cross-Linked Hyaluronic Acid Manufactured by Biological Fermentation (YYD302) in Patients With Knee Osteoarthritis: A Double-Blind, Randomized, Multicenter, Noninferiority Study. *Clin Ther*. 2021
3. Is it worth to perform initial non-operative treatment for patients with acute ACL injury?: a prospective cohort prognostic study. *Knee Surg Relat Res*. 2021
4. Poor Dietary Protein Intake in Elderly Population with Sarcopenia and Osteosarcopenia: A Nationwide Population-Based Study. *J Bone Metab*. 2020
5. Improvement of Osteoporosis Medication after Multimodal Intervention in Patients with Hip Fracture: Prospective Multicenter Study, *J Bone Metab*, 2018
